PROFILE SUMMARY

Frontend Developer with hands-on experience in building responsive and user-friendly web interfaces using React, JavaScript (ES6+), HTML5, and CSS3. Skilled in translating UI/UX designs into clean, scalable code and collaborating with cross-functional teams in agile environments. I have a strong eye for detail, a passion for clean design, and a solid understanding of modern frontend development practices.

PROJECT-BASED DEVELOPMENT WORK

Workout Routine Builder

React, Vite, Tailwind CSS, GitHub Pages

Developed a dynamic fitness planner that allows users to create, edit, and remove workout routines. Focused on modular React components, clean UI with Tailwind, and deployed via GitHub Pages.

CineVault – Movie Discovery App

React, Vite, TMDB API, CSS

Developed a responsive movie exploration platform integrating the TMDB API. Implemented features such as browsing popular movies, filtering by ratings (6+, 7+, 8+), and sorting by date, rating, and alphabetically. Emphasized component-based architecture with React, efficient state management, and optimized performance using Vite. Key components include MovieList.jsx, FilterMovies.jsx, SortMovies.jsx, and MovieCard.jsx.
