Junior Front-End Developer | React Developer | JavaScript Developer

PROFESSIONAL SUMMARY

Detail-focused junior front-end developer with hands-on experience building responsive, mobile-first web applications. Proficient in JavaScript, TypeScript, React, HTML5, CSS3, and Tailwind CSS, with projects including an investment calculator, movie library, and workout builder. Skilled in component-based development, state management, version control (Git), and RESTful API integration. Committed to writing clean, maintainable code and delivering high-quality front-end solutions with strong focus on usability, performance, accessibility, and cross-browser compatibility.

TECHNICAL SKILLS

- **Front-End Development:** HTML5 | CSS3 | JavaScript (ES6+) | React.js | JSX | Tailwind CSS | Sass | TypeScript | Flexbox | DOM Manipulation | Semantic HTML
- **UI/UX & Responsive Design:** Responsive Web Design | Cross-Browser Compatibility | Accessibility (a11y) Standards | Media Queries | Layout & Positioning | Form Validation | Component-Based Architecture
- **Tools & Frameworks:** Visual Studio Code | Git | GitHub | Vite | Postman | Webpack | ESLint | npm | Command Line Interface (CLI)
- **API & Data Handling:** RESTful API Integration | JSON | AJAX | HTTP Requests | API Testing with Postman
- **Database & Backend Basics:** SQL | SQL Joins | PHP (Basic) | Localhost Environments | Data Structures
- **Programming Fundamentals:** Python (Basics) | JavaScript Functions & Loops | Arrays & Objects | Event Handling | Version Control Systems (Git)

EDUCATION

Web Development | SoftUni Global	**January 2024 – Present**
Web and Software Development Programme | ITonlinelearning Ltd.	**February 2024 – March 2025**

CERTIFICATIONS

✓ **Fundamentals in Mathematics** – Software University	**Apr 2025**
✓ **PHP Essentials** – ITonlinelearning	**Feb 2025**

✓ **Certified Personal Fitness Trainer (CPFT-)** – CompaSSpa ODD	**Mar 2019**

PROJECT EXPERIENCE

CineVault – Movie Library App
React | JavaScript | Tailwind CSS | TMDB API | Vite
A responsive and performance-optimized movie discovery app that fetches real-time data using the TMDB API.
- Implemented real-time data fetching and rendering using RESTful TMDB API with asynchronous React hooks and state.
- Engineered reusable components for filtering, sorting, and loading states to enhance modularity and code scalability.
- Optimized responsive UI using Tailwind CSS with hover effects, skeleton loaders, and gradient-based styling.

Workout Routine Builder
React | JavaScript | Tailwind CSS | Vite | LocalStorage API
A personalized workout planner allowing users to build weekly routines with custom exercises and persistent storage.
- Designed an interactive exercise planner with user-defined sets, reps, and weekly schedule using controlled React components.

- Integrated localStorage API to preserve workout data across browser sessions without requiring backend or user login.
- Developed modern UI using Tailwind CSS utilities, ensuring mobile responsiveness and a smooth visual experience.

Investment Calculator
React | JavaScript | CSS | Vite | ESLint | PropTypes
A financial visualization tool for calculating and displaying investment growth with multi-currency and yearly projection support.
- Built a dynamic input-driven form system to compute investment growth using compound interest logic and validation.
- Utilized PropTypes to ensure robust type-checking and maintainable code within reusable React functional components.
- Styled an intuitive, responsive interface using CSS with real-time currency selection and animated value transitions.

PROFESSIONAL EXPERIENCE

Warehouse Operative
Amazon   **July 2019 – Present**
- Coordinated with cross-functional teams to streamline operations, demonstrating collaboration and agile workflow adaptation skills.
- Applied analytical thinking to resolve stock discrepancies, improving inventory accuracy and boosting database reliability by 15%.
- Verified and entered product data with 98%+ accuracy, supporting real-time logistics tracking and shipment validation.

Security Guard
Abadon EOOD   **January 2018 – May 2019**
- Responded to events with situational awareness, applying rapid decision-making in high-pressure safety-related environments.
- Engaged with the public to ensure security while maintaining a customer satisfaction rate above 90% during onsite feedback checks.

Beach Attendant & Supervisor
Sea Colony Beach Resort   **June 2016 – September 2018**
- Supervised team or coached junior staff, demonstrating leadership, task delegation, and process optimisation in a busy environment.
- Enforced beach safety rules and coordinated services for over **300+ guests per week**, contributing to consistent positive guest reviews.

Fitness Coordinator
Central Fitness and Aerobics   **December 2016 – March 2017**
- Designed personalized wellness routines for over 40 clients, helping improve average fitness assessment scores by 15%.
- Promoted long-term engagement, resulting in 20%+ membership retention improvement over a 3-month period.

Bartender
Yoanna Cake Boutique   **May 2015 – December 2015**
- Delivered fast-paced service using multitasking skills and system-driven order tracking in a high-volume hospitality setting.
- Maintained hygienic, customer-focused environments by managing bar stock and executing prep routines with consistent care.

Manager
IVIS OOD   **December 2015 – January 2018**
- Oversaw sales or procurement, demonstrating commercial awareness, stakeholder communication, and business process alignment.
- Delivered customer-first service strategies or trained staff, improving user engagement and service flow within retail environments.
