

Vilizar Denichin

Front-End Developer | React | TypeScript

+44 7944 099422 · London / Bedfordshire, UK · denichinv@gmail.com · linkedin.com/in/vilizar-denichin · github.com/denichinv · vilizar.dev

PROFESSIONAL SUMMARY

Front-End Developer specialising in React and TypeScript, trained through Amazon's Career Choice programme and extensive self-directed project development. Experienced in component architecture, REST API integration, responsive UI, and accessibility (WCAG). Practised in automated testing with Vitest, Jest, and Playwright, with CI/CD pipelines via GitHub Actions and consistent test coverage exceeding 90%. Committed to writing clean, maintainable code and delivering reliable, user-focused web applications.

TECHNICAL SKILLS

Frontend

React · TypeScript · JavaScript (ES6+) · HTML5 · CSS3 · SCSS · Tailwind CSS · React Router · Context API · useReducer

Testing & Quality

Vitest · Jest · React Testing Library · Playwright · ESLint · CI/CD · GitHub Actions

Tooling & Workflow

Git · GitHub · Vite · Webpack · npm · Netlify · Vercel · Figma

APIs & State

REST APIs · API Integration · Asynchronous JavaScript · JSON · Error Handling · State Management

UI & Best Practices

Responsive Design · Accessibility (WCAG) · Performance Optimisation · Component-Based Architecture · Cross-Browser Compatibility

PROJECTS

Euphoria Wellness Studio – Business Website

Jan 2026 – Mar 2026

[Live Demo](#) | [GitHub](#)

[React](#) · [TypeScript](#) · [Tailwind CSS](#) · [Vite](#) · [Vitest](#) · [React Testing Library](#) · [Netlify Forms](#)

- Built a production-ready website for a real Pilates Reformer & XBody EMS wellness studio, deployed on a custom domain with bilingual (Bulgarian / English) content localisation.
- Designed fully responsive layouts optimised for mobile, tablet, and desktop using component-based architecture and Tailwind CSS.
- Integrated Netlify Forms for contact and lead generation without a custom back-end.
- Applied accessibility and performance best practices; tested key UI flows with Vitest and React Testing Library.

DevQuiz – Developer Knowledge Assessment Tool

Jul 2025 – Jan 2026

[Live Demo](#) | [GitHub](#)

[React](#) · [TypeScript](#) · [SCSS](#) · [Vite](#) · [Vitest](#) · [Playwright](#) · [React Testing Library](#) · [GitHub Actions](#) · [QuizAPI.io](#)

- Engineered a multi-stage quiz app (setup → questions → completion) with real-time score tracking, async QuizAPI.io integration, and robust error boundary handling.
- Built type-safe component architecture with custom TypeScript interfaces; architected modular SCSS system with 9 reusable mixins and 30+ CSS variables.
- Achieved 95% test coverage (Vitest + React Testing Library) with Playwright E2E tests running automatically on every commit via GitHub Actions CI/CD.

CineVault – Movie Discovery App

Jan 2025 – Jan 2026

[Live Demo](#) | [GitHub](#)

[React](#) · [JavaScript](#) · [CSS3](#) · [TMDB API](#) · [Vite](#) · [Vitest](#) · [Playwright](#) · [React Testing Library](#) · [GitHub Actions](#)

- Integrated TMDB RESTful API to fetch and display data from a 10,000+ movie database with client-side filtering by rating (6+, 7+, 8+) and multi-criteria sorting.
- Implemented skeleton loading states for optimised UX during async API calls and modular component structure with separation of concerns.
- Achieved 95% test coverage across 30+ tests (unit, async, API mocking) with Playwright E2E tests and automated GitHub Actions CI pipeline.

Further projects available at [vilizar.dev](#)

WORK EXPERIENCE

Warehouse Operative

Amazon | July 2019 – Present

- Maintained high standards of accuracy and reliability within a fast-paced, high-volume operational environment.
- Collaborated with colleagues to resolve inventory discrepancies and support continuous workflow improvement.
- Demonstrated consistent problem-solving under time pressure, meeting daily operational targets with minimal supervision.

Security Guard

Abadon EOOD | January 2018 – May 2019

- Exercised sound judgement in assessing and responding to incidents, maintaining thorough documentation and compliance with site protocols.
- Remained calm and effective under pressure in time-sensitive situations, demonstrating professional composure throughout.

EDUCATION

ITonlinelearning Ltd.

Web and Software Development Programme — Funded by Amazon Career Choice | February 2024 – March 2025

SoftUni Global

Web Development — Additional Courses (Self-Directed) | January 2024 – April 2025
